## OUR HISTORY

ICM Limited (“ICM”) is an entrepreneurial asset management group. Our expertise enables us to offer an innovative, insightful approach beyond traditional investment strategies.

Our origins date back to 1988, and we have evolved to become a global organisation, combining the established values and independence of a family office, the measured critique and high engagement of a private equity house, and the patient vision and loyal support of a founding investor. Alongside these qualities, we are increasingly recognised for finding right-sized opportunities in specialist sectors where we can have a meaningful role as investors.

Whilst ICM is entrepreneurial in nature, we uphold traditional values where the depth and longevity of our relationships are built by repeatedly delivering on our word, challenging constructively and acting respectfully. This informs our own culture, shaped by a global team of specialist investors and sector analysts, each revered in their field and given the freedom to find compelling investment opportunities. We maintain a balance of independence, insight sharing and a supportive collegiate environment which helps build conviction and ensure informed, robust outcomes.
